ORDER

Brief Facts of the Case

During the spot hearing at ESO-Bheden of Bheden Electrical Sub-division under Bargarh Electrical Division camp on 20-08-2025, the complainant appeared before the Forum whereas SDO- Bheden appeared as respondent before the Forum.

Brief facts pertaining to the case are that the Complainant is a LT- General Purpose <110 KVA consumer having consumer No. 5125-2201-0599 with connected load of 0.50 KW. That the Complainant has raised objection regarding the bills served to him in LT-General Purpose Category instead of Domestic category. The complainant also raised objection regarding wrong billing from Dec'2022 to Jul'2025. He requested for revision of category and bills and mentions about verbal complaint being made to the respondent earlier on.

Gist of Arguments made by the Parties

Both parties were present in the hearing. The contentions made by the parties are as follows:

1. Submission of the Complainant:

1. The complainant submits that, he was being billed on LT-General Purpose Category but later on he is using the supply for Domestic category. The complainant also raised objection regarding wrong billing from Dec'2022 to Jul'2025.
2. He further submits that; he had made verbal complain to the respondent about the erroneous bill.
3. He also requested the Forum to revise the category and bills.

2. Reply Submission of the Respondent:

- i. The respondent submitted the Physical Verification Report (PVR) dated 25-08-2025, mentioning that the "consumer is using the supply for Domestic purpose only".
- ii. The respondent also agreed upon change of category from General Purpose < 110KVA to Domestic and average billing from Dec'2022 to May'2025 and agreed for revision of bills. However, the respondent requested the Forum to take appropriate decision as necessary.

Findings and observations of the Forum

Written/verbal Submissions were made by both parties and arguments were heard at length. This Forum, after hearing the parties and going through the

relevant documents, FG and Samadhan database (Licensee's soft records) and provisions of law have concluded as follows:

1. That the complainant was being billed on LT-General Purpose Category from date of power supply i.e. 23-02-2021 but later on he is using the supply for Domestic category.
2. As per Regulation 43 of Odisha Electricity Regulatory Commission Distribution (Conditions of Supply) Code, 2019, *"If a consumer wishes to change his consumer category, he shall submit an application form to the licensee/supplier in the format given in Form No.1 or 2 to this Code. The licensee/supplier shall process the application form in accordance with the Regulation 21 of this Code. For site inspection and issuance & payment of demand note for the estimated cost of works, both the licensee/supplier and applicant shall follow the procedure and timelines as per provisions laid down in this Code. The licensee/supplier shall also note down the meter reading at the time of inspection. If on inspection, the consumer's request for reclassification is found valid, change of category shall be effective from the date of inspection and a written acknowledgment shall be sent to the consumer"*. The instant case has no records submitted from either of the parties regarding application for change of consumer category. As per certification made by ESO-Thuapali, submitted in Physical Verification Report (PVR) dated 22-08-2025, the complainant consumer is using the power supply for Domestic purpose. The respondent could not produce any documents before the Forum regarding previous action taken to reclassify the consumer category.
3. Again, As per Regulation 140 of Odisha Electricity Regulatory Commission Distribution (Conditions of Supply) Code, 2019, *" If it is found that a consumer has been classified in a particular category erroneously or the purpose of supply as mentioned in the agreement has changed or the consumption of power has exceeded the limit of that category or any order of reduction or enhancement of contract demand has been obtained, the engineer may reclassify him under appropriate category after issuing notice to him to execute a fresh agreement on the basis of the altered classification or modified contract demand. For this purpose, the consumer shall be duly given a 15 days' notice period to file objections, if any on the notice. The licensee/supplier after due consideration of the consumer's reply, if any, may alter the classification within 30 days thereafter through passing of necessary order and issuing letter, notice to that effect. Provided that if the consumer does not take steps within the time indicated in the notice to execute the fresh agreement, the engineer may, after issuing a clear fifteen days show cause notice and after considering his explanation, if any, may*

disconnect the supply of power observing due formalities as per law. Provided further that in case of any dispute, the matter shall be referred to the Grievance Redressal Forum constituted under the Electricity Act, 2003.

4. It is further noted that the complainant has been billed on actual meter reading basis up to Nov'2022 with a meter reading of "2688" of meter no. WLT195063. From Dec'2022 to Mar'2025, no bills have been raised and in the month of Apr'2025 average bill @ 3164 units for 29 months have been raised at a time.
5. It is also noted that, the same meter bearing Sl. No. WLT195063 is continuing and meter reading of "3265" has been updated in the month of Jul'2025 but no adjustment has been done which is disputed by the complainant.
6. Therefore, it is decided by the Forum that, the tariff should be changed to Domestic category and bills from Dec'2022 to Jul'2025 should be revised.

Directions of the forum

In view of the above findings and discussions, the Forum is of the view that,

- The tariff of the complainant is to be changed from General Purpose < 110KVA to Domestic category immediately as per Regulation 43 and 140 of Odisha Electricity Regulatory Commission Distribution (Conditions of Supply) Code, 2019.
- The bills from Dec'2022 to Jul'2025 are to be revised taking the IMR as "2688" and FMR as "3265" as per Section 157 of Odisha Electricity Regulatory Commission Distribution (Conditions of Supply) Code, 2019.
- Any adjustments done during the revision period are also to be taken in to consideration.
- DPS charged on the wrong bills are also to be withdrawn.

The Opposite party is directed to submit the compliance report to this Forum within one month from the date of issue of this order.

Accordingly, the case is disposed of.
