ORDER

Brief Facts of the Case

During the spot hearing camp at Padampur Electrical Sub-division under Bargarh West Electrical Division on 17-03-2026, the complainant appeared before the Forum whereas SDO- Padampur appeared as respondent before the Forum.

Brief facts pertaining to the case are that the Complainant is a LT- Domestic consumer having consumer No. 5152-0207-3455 with connected load of 0.50 KW. That the Complainant has raised objection regarding the bills served from 2018 but the power supply has been given to him in 2022. He requested for revision of bills and mentions about verbal complaint being made to the respondent earlier on.

Gist of Arguments made by the Parties

Both parties were present in the hearing. The contentions made by the parties are as follows:

1. Submission of the Complainant:

1. The complainant submits that, average bills served from 2018 but the power supply has been given to him in 2022 resulted to accumulation of arrear.
2. He further submits that; he had made verbal complain to the respondent about the erroneous bill.
3. He also requested the Forum to revise the bills.

2. Reply Submission of the Respondent:

- i. The respondent submitted the PVR dated 10-04-2026 mentioning that the supply release date is 22-11-2018. The respondent also agreed that average billing has been done from Nov'2018 to Dec'2019 and agreed for revision of bills. However, the respondent requested the Forum to take appropriate decision as necessary.

Findings and observations of the Forum

Written/verbal Submissions were made by both parties and arguments were heard at length. This Forum, after hearing the parties and going through the

relevant documents, FG and Samadhan database (Licensee's soft records) and provisions of law have concluded as follows:

- That the complainant has been given power supply on 22-11-2018 without a meter and average bills have been served from Nov'2018 to Dec'2019.
- In the meanwhile, a new meter bearing Sl. No. LW451311 has been installed on 10-12-2019 in the premises of the complainant.
- It is noted by the Forum that bills on actual meter readings have been served from Jan'2020 and also payments have been made by the complainant several times before 2022. Therefore, the claim made by the complainant that the power supply was given to him in 2022 is not accepted.
- Hence, the Forum construed that, only provisional/average bills should be revised.

Directions of the forum

In view of the above findings and discussions, the Forum is of the view that,

- The average bills served to the complainant from Nov'2018 to Dec'2019 are to be revised as per the average of six consecutive billing of new meter as per Section 155 and 157 of Odisha Electricity Regulatory Commission Distribution (Conditions of Supply) Code, 2019.
- Any adjustments done during the revision period are also to be taken in to consideration.
- DPS charged on the wrong bills are also to be withdrawn.

The Opposite party is directed to submit the compliance report to this Forum within one month from the date of issue of this order.

Accordingly, the case is disposed of.
