ORDER

Brief Facts of the Case

During the spot hearing at Padampur Sub-division under Bargarh West Electrical Division camp on 18-05-2026, the complainant appeared before the Forum whereas SDO- Padampur appeared as respondent before the Forum.

Brief facts pertaining to the case are that the Complainant is a LT- Domestic consumer having consumer No. 5152-1610-1329 with connected load of 1.00 KW. That the Complainant has raised objection regarding the high consumption bill in Oct'2024. He requested for revision of bills and mentions about verbal complaint being made to the respondent earlier on.

Gist of Arguments made by the Parties

Both parties were present in the hearing. The contentions made by the parties are as follows:

1. Submission of the Complainant:

1. The complainant submits that, high consumption bill has been served to him in Oct'2024 due to which high billings have been done resulted to accumulation of arrear.
2. He further submits that; he had made verbal complain to the respondent about the erroneous bill.
3. He also requested the Forum to revise the bills.

2. Reply Submission of the Respondent:

- i. The respondent also agreed upon high consumption bill in Oct'2024 and agreed for revision of bills and submitted PVR dated 22-05-2026 received on 25-05-2026. However, the respondent requested the Forum to take appropriate decision as necessary.

Findings and observations of the Forum

Written/verbal Submissions were made by both parties and arguments were heard at length. This Forum, after hearing the parties and going through the relevant documents, FG and Samadhan database (Licensee's soft records) and provisions of law have concluded as follows:

- a. That the complainant has been given power supply on 15-12-2023 with installation of a new meter bearing Sl. No. 1074143 and bills on actual meter readings have been served up to Sep'2024 with a meter reading of "691" with a monthly average consumption of 69 units. In Oct'2024, bill @ 2558 units has

been served showing the meter reading as "3249" which is disputed by the complainant.

- b. Again, it is noted by the Forum that, from Nov'2024 to Jun'2025 provisional/average bills have been served and the meter has been declared defective which creates doubts on the consumption recorded in Oct'2024.
- c. In the meanwhile, a new meter bearing Sl. No. TWST15107936 has been installed on 17-07-2025 in the premises of the complainant. It is also noted that the monthly average consumption of new meter is 69 units per month (Average from Jul'25 to Apr'26).
- d. It is also noted that the respondent has already revised the average bills from Nov'2024 to Jun'2025.
- e. Hence, the Forum construed that, the bill for the month of Oct'2024 should be revised.

Directions of the forum

In view of the above findings and discussions, the Forum is of the view that,

1. The energy bill for the month of Oct'2024 is to be revised as per the average of six consecutive billing of new meter as per Section 155 and 157 of Odisha Electricity Regulatory Commission Distribution (Conditions of Supply) Code, 2019.
2. Any adjustments done during the revision period are also to be taken in to consideration.
3. DPS charged on the wrong bills are also to be withdrawn.

The Opposite party is directed to submit the compliance report to this Forum within one month from the date of issue of this order.

Accordingly, the case is disposed of.
