### **Findings and observations of the Forum**

Written/verbal Submissions were made by both parties and arguments were heard at length. This Forum, after hearing the parties and going through the relevant documents, FG and Samadhan database (Licensee's soft records) and provisions of law have concluded as follows:

- a. That the complainant has been given power supply with a connected load of 30.00 KW on 13-05-2022 with installation of a 3PH meter and meter rent has not been charged as the complainant had already deposited Rs.12238.16 towards the meter cost with installation charges.
- b. Later, in the process of technological upgradation, the old meter bearing SI. No TPUL00059 was replaced with a new smart meter bearing SI. No TWSL11000587 on Dt- 23.05.2023. After installation of smart meter, meter rent @500 per month had been charged from May'2023 to September'2024
- c. As per regulation 113 (v) of Odisha Electricity Regulatory Commission Distribution (Conditions of Supply) Code, 2019 *"In case the licensee/supplier replaces the meter due to technological up-gradation, the cost of the old correct meter already recovered through meter rent shall be deducted from the cost of new meter and the balanced amount may be recovered through meter rent on pro-rata basis"*.
- d. In view of this, the Forum is of the view that the meter rent charged more than the meter cost already paid by the complainant is to be withdrawn.

## **Directions of the forum**

In view of the above findings and discussions, the Forum is of the view that,

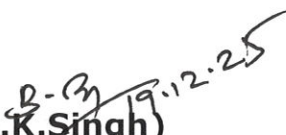

- The meter rent charged more than the cost of old meter already paid by the complainant is to be deducted from the cost of new meter and excess meter rent charged to the complainant is to be withdrawn as per Section 113 (v) of Odisha Electricity Regulatory Commission Distribution (Conditions of Supply) Code, 2019.
