ORDER

Brief Facts of the Case

During the spot hearing at ESO-Bhukta, of Bhatli Electrical Sub-division under Bargarh Electrical Division on 12-02-2025, the complainant appeared before the Forum whereas SDO- Bhatli appeared as respondent before the Forum.

Brief facts pertaining to the case are that the Complainant is a LT-IRRIGATION PUMPING AND AGRICULTURE consumer having consumer No. 512001037055 with connected load of 4.00 KW. That the Complainant has raised objection regarding the abnormal consumption bills served to him in Dec'2022. He requested for revision of bills and mentions about verbal complaint being made to the respondent earlier on.

Gist of Arguments made by the Parties

Both parties were present in the hearing. The contentions made by the parties are as follows:

1. Submission of the Complainant:

1. The complainant submits that, high consumption bills have been served to him for the month of Dec'2022 due to which high billings have been done resulted to accumulation of arrear.
2. He further submits that; he had made verbal complain to the respondent about the erroneous bill.
3. He also requested the Forum to revise the bills.

2. Reply Submission of the Respondent:

- i. The respondent also agreed upon abnormal bills for the month of Dec'2022 and agreed for revision of bills. However, the respondent requested the Forum to take appropriate decision as necessary.

Findings and observations of the Forum

Written/verbal Submissions were made by both parties and arguments were heard at length. This Forum, after hearing the parties and going through the relevant documents, FG and Samadhan database (Licensee's soft records) and provisions of law have concluded as follows:

- That the complainant has been given power supply on 12-06-2019 with installation of a new meter bearing Sl. no. WSC47918. From the date of power supply to Nov'2022, provisional bills have been served. For the month of Dec'2022 abnormal consumption of 112068 units has been recorded with a

meter reading of "112068" KVAH. However, it is noted by the Forum that from Jun'19 (Month of meter installation) to Dec'22 (43 months) the monthly average consumption is 2606 units (80279/39). From Jan'2023 to Oct'2023, again no meter readings have been taken and provisional bills have been served.

- In the meanwhile, a new meter bearing Sl. No. 10043609 has been installed on 25-11-2023 in the premises of the complainant.
- The new meter average was also recorded as 368 units per month (from Nov'23 to Jan'25) which leads the Forum to revise the abnormal bills as per new meter.
- Therefore, it is decided by the Forum that, the abnormal bills and provisional period bills should be revised.

Directions of the forum

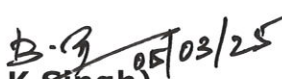

In view of the above findings and discussions, the Forum is of the view that,

- The abnormal/provisional bills served to the complainant from Nov'2021 to Oct'2023 (Two Years) are to be revised as per the average of six consecutive billing of new meter as per Section 155 and 157 of Odisha Electricity Regulatory Commission Distribution (Conditions of Supply) Code, 2019.
- Any adjustments done during the revision period are also to be taken in to consideration.
- DPS charged on the wrong bills are also to be withdrawn.

The Opposite party is directed to submit the compliance report to this Forum within one month from the date of issue of this order.

Accordingly, the case is disposed of.
