Findings and observations of the Forum

Written/verbal Submissions were made by both parties and arguments were heard at length. This Forum, after hearing the parties and going through the relevant documents, FG and Samadhan database (Licensee's soft records) and provisions of law have concluded as follows:

- a. That the complainant has been given power supply with installation of a meter bearing sl. No. WESCO243500 and bills on actual meter readings have been served up to Feb'2016 with a monthly average consumption of 30 units (Average from Jan'2015 to Feb'2016). From Apr'2024 to Dec'2024 provisional/average bills have been served due to defective meter with a monthly average consumption of 89 units.
- b. In the meanwhile, a new meter bearing Sl. No. TPWODL1015910 has been installed on 10-08-2022 in the premises of the complainant. It is noted that the monthly average of new meter is 365 (six months average) units for which the respondent has made an upward assessment for the defective period and an amount of Rs. 24958.20 added in his bill in May'2023.
- c. But as per submission made by the complainant and agreed by the respondent that as the consumer purchased an AC on 01-07-2022 to use, the consumption has gone up.
- d. Therefore, it is decided by the Forum that the amount of Rs. 24958.20 added in his bill in May'2023 is to be withdrawn.

Directions of the forum

In view of the above findings and discussions, the Forum is of the view that,

1. The bill revision amount of Rs. 24958.20 for meter change assessment is to be withdrawn as per Section 157 of Odisha Electricity Regulatory Commission Distribution (Conditions of Supply) Code, 2019.
