## **ORDER**

### **Brief Facts of the Case**

During the spot hearing camp at Paikmal Electrical Sub-division under Bargarh Electrical Division on 18-12-2025, the complainant appeared before the Forum whereas SDO Paikmal appeared as respondent before the Forum.

Brief facts pertaining to the case are that the Complainant is a LT- Domestic consumer having consumer No. 5154-1107-0779 with connected load of 1.00 KW. That the Complainant has raised objection regarding the abnormal/ average bills served to him from Mar'2016 to Apr'2017. He requested for revision of bills and mentions about verbal complaint being made to the respondent earlier on.

### **Gist of Arguments made by the Parties**

Both parties were present in the hearing. The contentions made by the parties are as follows:

#### **1. Submission of the Complainant:**

1. The complainant submits that, abnormal/ average bills served to him from Mar'2016 to Apr'2017 resulted to accumulation of arrear.
2. He further submits that; he had made verbal complain to the respondent about the erroneous bill.
3. He also requested the Forum to revise the bills.

#### **2. Reply Submission of the Respondent:**

- i. The respondent also agreed upon abnormal/average billing and agreed for revision of bills and submitted PVR dated 22-12-2025. However, the respondent requested the Forum to take appropriate decision as necessary.

### **Findings and observations of the Forum**

Written/verbal Submissions were made by both parties and arguments were heard at length. This Forum, after hearing the parties and going through the relevant documents, FG and Samadhan database (Licensee's soft records) and provisions of law have concluded as follows:

- a. That the complainant has been given power supply on 21-09-2015 and bills on actual meter reading has been served up to Feb'2016 with a meter reading of "413" for a monthly average of 69 units.

- b. From Mar'2016 to Apr'2016, provisional bills have been served and in May'2016 bill @ 4441 units have been served with a meter reading of 4854 for a monthly average consumption of 1480 units which is disputed by the complainant. From Jun'2016 to Apr'2017 provisional bills have been raised.
- c. In the meanwhile, a new meter bearing Sl. No. WLT003565 has been installed in May'2017 in the premises of the complainant.
- d. The respondent could have tested the meter for such high consumption but no proper procedure has been followed rather than declaring the meter as defective.
- e. Hence, the Forum construed that, the abnormal/average bills should be revised.

### **Directions of the forum**

In view of the above findings and discussions, the Forum is of the view that,

1. The abnormal/average bills served to the complainant from Mar'2016 to Apr'2017 are to be revised as per the average of six consecutive billing of new meter as per Section 155 and 157 of Odisha Electricity Regulatory Commission Distribution (Conditions of Supply) Code, 2019.
2. Any adjustments done during the revision period are also to be taken in to consideration.
3. DPS charged on the wrong bills are also to be withdrawn.

**The Opposite party is directed to submit the compliance report to this Forum within one month from the date of issue of this order.**

Accordingly, the case is disposed of.
