COMPLAINANT

VRS

(1) E.E (Elect.), B.E.D, Bargarh, TPWODL

OPPOSITE PARTY

GIST OF THE CASE

The Complaint petition filed by Sri Dayaram Patel, At-Narangpur-2, Bhukta, Dist-Bargarh, objected about the abnormal energy bill charged in August-2023, where an upward assessment of previous bills have been done with an amount of Rs.49,300.69. The Complainant prayed before the Forum to direct the Opposite Party to withdraw such erroneous bills raised & resolve the billing dispute accordingly.

SUBMISSION OF OPPOSITE PARTY

The Opposite Party submitted the ledger copies from Oct-2018 to Dec-2023, Physical Verification Report (PVR) and the written submission. In reply to this case, the Opposite Party has mentioned that, the complainant is availing supply from 25.06.2018 in Irrigation Pumping & Agriculture Tariff. The bill was raised in Avg/PL basis upto Sep 2022 with Meter status "Without Meter". A New Meter bearing Sl No. TPU044458 was installed in the premises of the complainant and billing is continuing on actual meter reading basis till date. The previous bills for the period from Oct 2020 to Sept 2022 (Two Years) has been revised by taking into account the average consumption of next consecutive Six months after installation of new meter and an amount of Rs. 48763.05 has been debited in the bill of the complainant in the month of Aug 2023. the Opposite party stated before the Forum that the billing is OK, and the upward assessment has been done as per OERC guideline.

OBSERVATION

The case is perused with all documents available in record and merit of the case. The complainant is an existing consumer of electricity under the operational area of TPWODL bearing Consumer No-5120-0106-3350, having CD-3HP, under LT-Irrigation Pumping & Agriculture category, under ESO, Bhukta.

On scrutinizing the case in detail, it was observed from the ledger abstract that average/provisional bills were charged continuously from the date of initial power supply i.e. from 25.06.2018 till October-2022. A new meter bearing serial No."TPU044458" was installed in the premises on 10.10.2022 & monthly energy bills were charged thereafter on actual meter reading basis. It was revealed that an amount of Rs. 49,300.69 was debited/added in the bill of August-2023. It was clarified from the FG database that an upward assessment of previous average bills have been done for the period from October-2020 to September-2022, considering succeeding six months actual monthly average

consumption @1563 unit per month, as recorded in the new meter installed bearing serial No. TPU044458".

Hence, the Forum observed that the additional bills raised from October-2020 to September-2022, is in obedience to regulation-155 of OERC Distribution (Conditions of Supply) Code 2019. However, in order to even out effect of seasonality, the complainant being an agricultural consumer, twelve months average consumption be re-considered instead of 6 months actual monthly average consumption of existing running meter, so evaluated already, to justify the consumption as recorded & redress the grievances accordingly.

ORDER

Considering the documents and statements submitted by both the parties and agreed upon at the time of hearing, the Forum hereby passes orders in consonance with regulations of the OERC Distribution (Conditions of Supply) Code 2019.

1. The Opposite Party is directed to reassess & revise the energy bills raised to the consumer for the period from **October-2020 to September-2022**, based on succeeding twelve months actual monthly average consumption so recorded in the existing meter bearing meter sl. no." TPU044458", from the date of installation of the same.
2. The Opposite party is directed not to consider the bill revision for the period already where the complainant has availed the OTS scheme and rebate thereon, if any, as applicable, as not submitted any information for the same by either of the parties.
3. The Opposite Party is directed to serve the revised energy charges bill with revised due date within 30 days from the receipt of this Order, duly considering the applicable tariff during the period, taking in to account the adjustments, if any, and adjusting the payments made by the complainant and ensure payment thereof.
4. The Complainant is directed to pay the revised billed amount so arrived, if any, within due date after receipt of the revised energy charges bill as per regulation- 144 of OERC Distribution (Conditions of Supply) Code,2019.

The Opposite party is directed to submit the compliance report to this Forum within one month from the date of issue of this order.

Accordingly, the case is disposed of.
