raised by the complainant for the average billing from the date of power supply to Apr-2019 was due to meter defective for that period. A new meter with sl. no. LW157398 has been installed on 17th Jan. 2019, thereafter actual billing has been done. As the above-stated period bill has not yet revised, it needs bill revision as per CI-155 of OERC Regulation (Conditions of Supply) Code 2019.

Considering the above, the OP requested before the Forum for revision of previous disputed bills and pass order as deemed fit.

FINDINGS AND ANALYSIS OF THE FORUM

The consumer is a LT-Dom. consumer with a CD of 1 KW. The consumer has availed power supply since 14th Jun. 2018 and total outstanding upto Mar.-2026 is ₹ 7,469.81p. As complained by the complainant and submission of OP, it is observed by the Forum that,

As represented by the consumer, due to meter defective, he has been served with average bills from the date of power supply to Apr-2019 which needs bill revision.

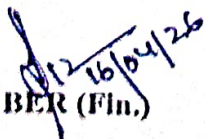

The OP admitted the complaint and submitted that a new meter has been installed with meter no. LW157398 on 17th Jan. 2019, but due to delay in meter data updation, the meter no. has been reflected in Jun.-2019 billing for which a delay meter updation revision has been done with a credit of ₹ 4,475.61p and reflected in the bill. Thereafter, the monthly energy bill has been raised on actual meter reading basis. The defective billing period needs bill revision as per consumption of new meter as per CI-155 of OERC Regulation (Conditions of Supply) Code 2019.

In the instant case, it is surprised that the OP has allowed the consumer to continue with defective meter for more than eight months which violates CI-155 of OERC Distribution (Conditions of Supply) Code-2019 and also attracts under Schedule-III of Guaranteed Standard of Performance of OERC Distribution (Conditions of Supply) Code. Hence, it is advised the OP to be more pro-active for replacement of defective meter within standard time as prescribed by Hon'ble OERC. Due to delay in installation of new meter, average billing was done which could have been avoided if the OP has installed the meter without delay for which it is advised to the OP to be taken care in future.

During the course of hearing, the OP has admitted with the billing complaints and initiated bill revision process on the spot observing departmental guidelines. Accordingly, the monthly bill has been recalculated with the consumption and an amount of ₹ 6,632.35p is to be withdrawn from the arrear outstanding.

In view of above facts and circumstances and after going through the documents submitted by both the parties, the Forum pronounces the following order as per regulations of the OERC Distribution (Conditions of Supply) Code 2019.

The OP has agreed with the billing dispute and revised the bill on spot and the petitioner has convinced with the proposed withdrawal amount of ₹ 6,632.35p. Hence, the Forum directed the OP to carry-out the revision proposal and must be reflected in the next bill.
