## OBSERVATION

The case is pursued with all documents available on record and merit of the case. The complainant is an existing consumer of electricity under the operational area of TPWODL bearing consumer No 4141-1589-0536, having CD-0.11KW under LT-Domestic category, coming under ESO-Tileibani & initial power supply effected on 05.05.2010. On scrutinizing the records in detail, the Forum observed the following facts which are envisaged here under that,

1. That, as per objection raised by the complainant and on examining the case in detail, the Forum observed from the licensees' soft records (FG & Samadhan App) that 1<sup>st</sup> energy bill was raised in February-2011 with initial meter installed bearing SL.No." 804299".
2. That, provisional bills were charged from November-2011 to May-2014. Actual bill was charged with "1000" units in June/July-2014, as recorded in above meter. Thereafter, average bills continuously raised from August-2014 to July-2020 @ 26 units/50 units/100 units/200 units on bi-monthly basis, as no meter readings were advanced in the afore mentioned meter.
3. It was observed that a new meter bearing SL.No." LW318324" was installed on 28-Jul-2020, replacing the old meter No." 804299".
4. That, the Opposite Party has already revised the energy bills charged from July-2020 to November-2022 & Rs.26.93/- was credited back to(deducted from) the consumer account on 08-01-2023.

The Forum on scrutinizing the records, reports available on record construed that the energy bills charged limited up to & including two years (as per regulation-155 & regulation-157 of OERC Distribution (Conditions of Supply), Code,2019) prior to installation of new meter SL. No."LW318324 i.e. from August-2018 to July-2020 are to be revised by the Opposite Party, based on actual monthly average consumption recorded in meter No." LW318324".
