### OBSERVATION

The case is pursued with all documents available on record and merit of the case. The complainant is an existing consumer of electricity under the operational area of TPWODL bearing consumer No 4141-1589-0430, having CD-0.11KW under LT-Domestic category, coming under ESO-Tileibani & initial power supply effected on 13.05.2010. On scrutinizing the records in detail, the Forum observed the following facts which are envisaged here under that,

1. That, as per objection raised by the complainant and on examining the case in detail, the Forum observed from the licensee's soft records (FG & Samadhan App) that average bills were charged to the complainant from October-2015 to November-2018 @68 units/272 units on bi-monthly basis, as no meter readings were advanced in meter SL.No." 805985".
2. That, a new meter bearing SL.No." LW163702" was installed on 17-Feb-2019, replacing the old defective meter No." 805985" & actual bills continued to charge thereafter.

The Forum on scrutinizing the records, reports available on record construed that average energy bills charged limited to two years (as per regulation-155 & regulation-157 of OERC Distribution (Conditions of Supply), Code,2019) i.e. from December-2016 to November-2018 are to be revised based on the actual monthly average consumption recorded in subsequent meter No." LW163702".
