**GIST OF THE CASE**

Sri Manoj Mahapatra on behalf of Pankaj Mahapatra appeared in the hearing on Dt. 15.11.2025 at the camp held at SDO Office, Deogarh. The complainant submitted during course of hearing in brief as follows:

**SUBMISSION OF OPPOSITE PARTY**

The opposite party submit billing abstract from Feb-2001 to Oct-2025, a Physical Verification Report carried out on 27.11.25 & written statement in this case. In reply to the case the opposite party submitted the following facts.

1. As per billing data the power supply given to consumer premises under 'DOM' category with CD-2.20 KW (FG).
2. The consumer registered OTSS-2022 and deposited the OTS instalment receipt amount of Rs.12102/- on Dt.03.03.2023 and also availed OTS rebate amount of Rs.876.85/- which is reflected in consumer ledger on Dt.03.03.2023.
3. The Meter No "WLT077421" was installed on Dt.08.01.2018 with IMR=0 and then onwards the electricity bill served to consumer on actual basis.
4. The opposite party suggested that, bill revision is not preferable, so the case may be dropped.

### OBSERVATION

The case is pursued with all documents available on record and merit of the case. The complainant is an existing consumer of electricity under the operational area of TPWODL bearing consumer No 4141-1402-0087, having CD-2.2KW under LT-Domestic category, coming under ESO-Deogarh & initial power supply effected on 01.01.1990. On scrutinizing the records in detail, the Forum observed the following facts which are envisaged here under that,

1. That, as per objection raised by the complainant and on examining the case in detail, the Forum observed from the licensees soft records (FG & Samadhan App) that actual bills were raised upto April-2007 billing, as per consumption recorded in meter No." WESCO284039".
2. That, provisional & average bills were charged continuously from May-2007 to December-2017 @ 80 units/107 units/228 units/317 units on monthly basis, as no advanced consumption recorded in above mentioned meter. Such average billing could have been avoided if timely installation of a new tested meter were installed for recording actual consumption. The diligent & dexterity expected in execution of duties was not met by the Opposite Party in the instant case.
3. That, a new meter bearing SL.No." WLT077421" was installed & updated in billing during January-2018, replacing the old defective meter No." WESCO284039" & actual bills continued to charge thereafter till last billing.

The Forum on scrutinizing the records, reports available on record construed that the provisional & average energy bills charged limited to two years (as per regulation-155 & regulation-157 of OERC Distribution (Conditions of Supply), Code,2019) i.e. from January-2016 to December-2017 are to be revised by the Opposite Party based on the actual monthly average consumption recorded in subsequent meter No." WLT077421".

### ORDER

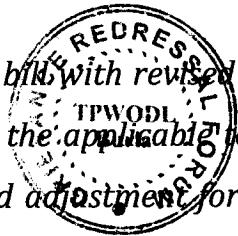

After careful consideration of hearing and documents, statements available on records, the Forum hereby passes order in consonance with Regulation of OERC Distribution (Conditions of Supply), Code,2019

No." WLT077421", from the date/month of installation of the same, duly adjusting the bill revision made earlier and/or the benefit arising out of the OTS Scheme, if any.*
