**COMPLAINANT**

**OPPOSITE PARTY**

**GIST OF THE CASE**

Sri Saroj Sing Naik on behalf of Sabitri Sing Naik appeared in the hearing on Dt. 25.11.2025 at the camp held at ESO Office, Laikera. The Complainant filed the petition before the Hon'ble Forum, that the consumer is getting high bill in the early sessions of this Year i.e January and February and before that he was getting the bill in average and he urged before the learned forum to settle the matter.

**Previous Complain. if any:** Not Available

**SUBMISSION OF OPPOSITE PARTY**

The opposite party submit could not submit any relevant documents in this case.

**OBSERVATION**

The case is pursued with all documents available on record and merit of the case. The complainant is an existing consumer of electricity under the operational area of TPWODL bearing consumer No 4135-2810-0163, having CD-1.50KW under LT-Domestic category, coming under ESO-Laikera & initial power supply effected on 10.04.2020. On scrutinizing the records in detail, the Forum observed the following facts which are envisaged here under that,

1. That, as per objection raised by the complainant and on examining the case in detail, the Forum observed from the licensee's soft records (FG & Samadhan App) that power supply given to consumer premises on 05th December 2005 with meter no "1943952" under LT- DOM category with CD-1.50 KW, followed by the status Regular.
2. That, the billing data and ledger showed provisional/average bills charged then from November- 2006 till January 2023 with mostly average billing with a few provisional and actual there on further in November 2024.

3. That, a new meter bearing SL.No." 300074982" was installed on 01/03/2023. No monthly bills were charged from Feb-2023 to Oct-2024. Thereafter, actual bill charged in Nov-2024, based on consumption recorded in above meter.
4. That, the disconnection was made on dated 26/06/2023, but the date of reconnection could not be ascertained as per records revealed and the next bill generated in December2024.
5. That, no proof of disconnection & reconnection submitted by the Complainant to establish the non usage period.
6. January-2025 bill charged abnormally with "2063" units in a single month & then, actual bills continued to charge afterwards.

The Forum on scrutinizing the records, reports available on record construed that, since the period of disconnection has never been effected physically, reason being no record of disconnection/reconnection physically effected and during which time a new meter installed on 01.03.2023, hence, the energy bills charged from March-2023 to January-2025 are to be revised as per consumption recorded in existing meter No."300074982", by recasting the total units of kwh"002063" on actual monthly average basis, to extend fair & reseasonable justice to the complainant.
