**OPPOSITE PARTY**

SDO(Electrical), Kuchinda, TPWODL.

**GIST OF THE CASE**

Gurubari Kisan appeared in the hearing on Dt. 03.12.2025 at the camp held at ESO Office, Kusumi. The complainant submitted during course of hearing in brief as follows:

1. To revise the abnormal/excess bill charged suddenly in August-2022.

**Previous Complain, if any:** Not Available

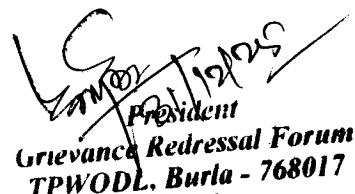

**SUBMISSION OF OPPOSITE PARTY**

The opposite party submit billing abstract from June-2017 to Oct-2025, a Physical Verification Report carried out on 12.12.25 & written statement in this case. In reply to the case the opposite party submitted the following facts.

1. Consumer availing power supply through meter no '602739' upto Sept-2018 with CMR '1400'.
2. After which, billings were done on provisional basis from Oct-2018 to July-2020, and in the billing month Aug-2020 meter reader had wrongly punched meter reding as '1' for which '8601' unit of bill was made.
3. Again, in Sept-2020 actual reading punched as '1449' and meter reading is rectified by the meter reader with the same meter no '602739'.
4. The Opposite Party suggested that bill made from Oct-2018 to Sept-2020 may be revised by considering the meter reading as IMR '1440' (Oct-2018) and CMR '1449' (Sept-2020) as per meter no 602739.

**OBSERVATION**

The case is pursued with all documents available on record and merit of the case. The complainant is an existing consumer of electricity under the operational area of TPWODL bearing consumer No 4132-3508-0065, having CD-0.01KW under LT-Domestic category, coming under ESO-Kusumi & initial power supply effected on 01.05.2012. On scrutinizing the records in detail, the Forum observed the following facts which are envisaged here under that,

  
President  
Grievance Redressal Forum  
TPWODL, Burla - 768017

1. The date of initial power supply is 01/05/2012 with installed meter no. 602739.
2. With meter no. 576050, actual billing continued up to August-2021. Due to wrong punching of meter status by meter reader as 'R-code" in the month of August-2020, round complete bill of 8601 units was generated which is totally absurd, looking into the previous and after wards consumption patten excluding the month of abnormal billing.
3. Average bills were generated from September-2021 to October-2022 due to meter brunt.
4. Again, a new meter having sl. no. TPWODL1086205 was installed 11/09/2022 and actual billing is continuing till date.

**ORDER**

After careful consideration of hearing and documents, statements available on records, the Forum hereby passes order in consonance with Regulation of OERC Distribution (Conditions of Supply), Code,2019

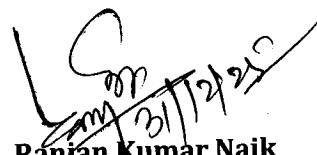

1. *The Opposite Party is directed to recast the EC bill from October-2018 to September-2020, on the basis of actual monthly average consumption recorded in the meter SL.No."602739", taking IMR as "1400"kwh on October-2018 and FMR as '1449'kwh on September-2020, duly adjusting the bill revision made earlier and/or the benefit arising out of the OTS Scheme, if any.*
2. *The Opposite Party is directed to serve the revised energy charges bill with revised due date, duly considering the applicable tariff during the period, considering the adjustments, if any, and adjustment for the payments made by the complainant.*
3. *The Complainant is directed to pay the revised billed amount so arrived at, if any, within due date after receipt of the revised energy charges bill to which the complainant is liable to pay.*

Accordingly, the case is disposed of.

***The opposite party is directed to submit the compliance report to this Forum within one month (by the end of January-2026) from the date of issue of this order.***
