**COMPLAINANT**

**OPPOSITE PARTY**

**GIST OF THE CASE**

Sri Sanatan Meher on behalf of Ratan Meher appeared in the Camp Court hearing held at SDO-II Office, Jharsuguda under ESO-Jhanda Chowk, on Dt. 09.12.2025. The complainant submitted during course of hearing in brief as follows:

- 1) The complainant the complainant has been operating a tea shop with LT-General Purpose supply & has raised objection regarding abnormal energy bills charged previously but failed to submit the period & nature of dispute.
- 2) To revise the EC bills as per actual meter consumption recorded.

**Previous Complain, if any:** Not Available

**SUBMISSION OF OPPOSITE PARTY**

The opposite party has not submitted any relevant documents in this case.

**OBSERVATION**

The case is pursued with all documents available on record and merit of the case. The complainant is an existing consumer of electricity under the operational area of TPWODL bearing consumer No 4135-1203-0873, having CD-2KW under LT-General Purpose<110KVA category, coming under ESO- Jhanda Chowk & initial power supply effected on 01.01.1990. On scrutinizing the records in detail, the Forum observed the following facts which are envisaged here under that,

- 1) On examining the case in detail, the Forum observed from the licensee's available soft records (FG & Samadhan App) that November-2009 bill charged on actual basis as per consumption recorded in meter SL.No."WESCO205188".However, provisional/average bills continuously raised thereafter from December-2009 to November-2022 on different units from time to time, as no advanced meter readings were recorded for billing.
- 2) That, a new meter bearing SL.No." LW533201" was installed on 07-Oct-2021, replacing the old defective meter No."WESCO205188".
- 3) That, the power supply was disconnected on 04-May-2023 & reconnected on 18-Jun-2025.

- 4) It was observed from records that provisional/average bills charged fifteen months prior to the date installation of meter No." LW533201" i.e. from September-2021 to November-2022 were already revised by the Opposite Party, based on actual monthly average consumption recorded in above meter and Rs. 37232.66/- were credited back to (deducted from) the consumer account on 17-01-2023.

The Forum is of the considered opinion that provisional/average energy bills charged for the remaining period i.e. from January-2021 to August-2021, limited to two years (as per regulation-155 & regulation-157 of OERC Distribution (Conditions of Supply), Code,2019) are to be revised by the Opposite Party based on actual monthly average consumption recorded in subsequent meter No." LW533201" as already derived in previous bill revision carried out for the period from September-2021 to November-2022, to redress the grievances accordingly.

### **ORDER**

After careful consideration of hearing and documents, statements available on records, the Forum hereby passes order in consonance with Regulation of OERC Distribution (Conditions of Supply), Code,2019

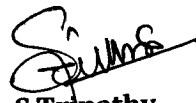

1. *The Opposite Party is directed to revise the energy bills charged from January-2021 to August-2021, on the basis of actual monthly average consumption as derived in previous bill revision already carried out for the period from September-2021 to November-2022, as per consumption recorded in meter SL. No." LW533201", from the date/month of installation of the same, duly adjusting the bill revision made earlier and/or the benefit arising out of the OTS Scheme, if any.*
