GIST OF THE CASE

Minakshee Bag on behalf of Satyananda Bag appeared in the hearing on Dt. 10.04.2026 at the camp held at ESO Office, Hatibari. The complainant submitted during course of hearing in brief as follows:

1. To revise the erroneously charged bills during 2024. After payment of Rs 10,000/- bill was not revised and old arrear is continuing.

Previous Complain, if any: Not Available

SUBMISSION OF OPPOSITE PARTY

The opposite party submits ledger abstract from Dec-2007 to March-2026 & a Physical Verification Report carried out on Dt.18.04.26 in this case.

OBSERVATION

The case is pursued with all documents available on record and merit of the case. The complainant is an existing consumer of electricity under the operational area of TPWODL bearing consumer No 4164-3204-0403, having CD-1.00 KW under LT-Domestic category, coming under ESO-Hatibari & initial power supply effected on 11.12.2007. On scrutinizing the records in detail, the Forum observed the following facts which are envisaged here under that,

1. The date of initial power supply is 11.12.2007 with installed meter no. "A4840450".
2. Actual/provisional bills were generated from date of power supply to Sept-2009. Then supply remained disconnected from Oct-Nov/2009 to Feb-Mar/2014. Then Provisional bills generated from April-May/2014 to Dec-Jan/2015.

3. A meter having Sl. No. "WES00257" was replaced during Feb-Mar/2015 and actual/provisional bills continued till June-July/2021.
4. In the billing month of April/May-2021, mentioning round complete of meter reading with the recorded unit "1390", a huge bill was generated with '2867' units amounting to Rs 14772/-, whereas previous actual recorded unit was '8523' in the billing month Oct-Nov/2020.
5. Again, in the billing month June-July/2021, showing the recorded unit as "9000", a huge bill of Rs 48173/- was generated with advanced unit of '7610' units, which is never possible for a domestic consumer having 1.0 KW load.
6. Being a 6-digit meter, round complete reading is not possible with 4-digit reading. So, the billed unit of April/May-2021 seems to be absurd & erroneous, also looking into the consumption patterns of previous and afterward of that billing month.
7. Meter having sl. no. WHL041024 was replaced during Aug-Sept/2021. Provisional/ average bills were served from Aug-Sept/2021 to Oct-Nov/2022, which was subsequently revised on 30.12.2022 with a credit sundry of Rs 77357.79. From then onwards actual bills are being served till date.

The Forum on scrutinizing the records & reports available on record, construed that the meter reader has put erroneous reading during the billing month from Dec-Jan/2021 to June-July/2021, which should be revised to resolve the consumer's grievance.

ORDER

After careful consideration of hearing and documents, statements available on records, the Forum hereby passes order in consonance with Regulation of OERC Distribution (Conditions of Supply), Code, 2019

1. The Opposite Party is directed to re-cast the EC bill from December-January/2021 taking IMR as '8523' to June-July/2021 taking FMR as '9000', duly adjusting the bill revision made earlier and/or the benefit arising out of the OTS Scheme, if any.
2. The Opposite Party is directed to serve the revised energy charges bill with revised due date within 30 days from the issue of this Order, duly considering the applicable tariff during the period, taking into account the adjustments, if any, and adjustment for the payments made by the complainant.

3. The Complainant is directed to pay the revised billed amount so arrived at, if any, within due date after receipt of the revised energy charges bill to which the complainant is liable to pay.

In terms of the above, the petition is disposed of.

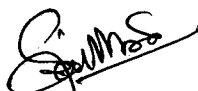

The opposite party is directed to submit the compliance report to this Forum within one month (by the end of June-2026) from the date of issue of this order.
