OBSERVATION

The case is pursued with all documents available on record and merit of the case. The complainant is an existing consumer of electricity under the operational area of TPWODL bearing consumer No 4141-1519-2655, having CD-0.11 KW under LT-Domestic category, coming under ESO-Tileibani & initial power supply effected on 05.06.2012. On scrutinizing the records in detail, the Forum observed the following facts which are envisaged here under that,

1. On examining the case in detail, the Forum observed from the licensee's available soft records (FG & Samadhan App) that average bills charged continuously from August-2014 to Sept-2022 billing, as no advanced meter readings were recorded in meter SL.No." 801726".
2. The ledger abstract revealed that a new meter bearing SL.No." TPWODL1123446" was installed subsequently on 16-Oct-2022 & actual bills continued to charge thereafter.
3. The Physical Verification Report dtd. 22.01.2026 indicated that above existing meter has been found in running condition with advanced meter reading recorded as kwh"000339".

The Forum on scrutinizing the records, reports available on record construed that average energy bills charged limited upto and including two years prior to installation of meter SL. No." TPWODL1123446" (as per regulation-155 & regulation-157 of OERC Distribution (Conditions of Supply), Code,2019) i.e. October-2020 to September-2022 are to be revised by the Opposite Party based on actual monthly average consumption recorded in in above installed meter to redress the grievances accordingly.
