OBSERVATION

The case is pursued with all documents available on record and merit of the case. The complainant is an existing consumer of electricity under the operational area of TPWODL bearing consumer No 4141-1123-0359, having CD-1.00 KW under LT-Domestic category, coming under ESO-Barkote & initial power supply effected on 12.01.2009. On scrutinizing the records in detail, the Forum observed the following facts which are envisaged here under that,

1. On examining the case in detail, the Forum observed from the licensees available soft records (FG & Samadhan App) that actual bills charged upto June/July-2013 billing, as per advanced consumption were recorded in meter No." 322868".
2. Thereafter, average bills charged from Aug-2013 to Sept-2018 on different units from time to time.
3. That, a new meter bearing SL.No." LW062600" was installed on 29-Sep-2018, replacing the old defective meter No." 322868" & actual bills continued to charge thereafter.
4. That, no bill units were charged as the power supply remained disconnected on 24-Nov-2024 & reconnected later on 06-Feb-2026.

The Forum on scrutinizing the records, reports available on record construed that the provisional & average energy bills charged limited to two years (as per regulation-155 & regulation-157 of OERC Distribution (Conditions of Supply), Code,2019) i.e. from Oct-2016 to Sept-2018 are to be revised by the Opposite Party based on actual monthly average consumption recorded in subsequent meter No." LW062600", to redress the grievances in an efficacious manner.
