ORDER

Brief Facts of the Case

During the spot hearing at Rajgangpur-II Electrical Sub-division of Rajgangpur Electrical Division camp on 23-02-2024, the complainant appeared before the Forum whereas SDO- Rajgangpur-II appeared as respondent before the Forum.

Brief facts pertaining to the case are that the Complainant is a LT- Domestic consumer having consumer No. 813425091054 with connected load of 0.50 KW. That the Complainant has raised objection regarding the high consumption bills served to him. He requested for revision of bills and mentions about verbal complaint being made to the respondent earlier on.

Gist of Arguments made by the Parties

Both parties were present in the hearing. The contentions made by the parties are as follows:

1. Submission of the Complainant:

- The complainant submits that, high consumption bills have been served to him due to which high billings have been done resulted to accumulation of arrear.
- He further submits that; he had made verbal complain to the respondent about the erroneous bill.
- He also requested the Forum to revise the bills.

2. Reply Submission of the Respondent:

- The respondent produced the billing abstract from Mar'2017 to Jan'2024 and a PVR dated 13-02-2024 mentioning the meter reading as "44" KWH of meter no. TWNX500291.
- The respondent also agreed to the high consumption billing in Jan'2018 and agreed for revision of bills. However, the respondent requested the Forum to take appropriate decision as necessary.

Findings of the Forum

Written/verbal Submissions were made by both parties and arguments were heard at length. This Forum, after hearing the parties and going through the relevant documents and provisions of law have concluded as follows:

- That the complainant has been billed on actual meter readings up to Jul'2017 with a meter reading of "0007" of meter no. B135710. It is noted from the ledger that from Aug'2017 no proper readings have been taken and in the month of Dec-Jan'2018 bills have been served @5743 with a wrong meter reading of "5768".
- The meter reading has been corrected to "0013" in the month of Apr-May'2018, showing very low consumption.
- Therefore, it is decided by the Forum that, wrong bills should be revised as per average of new meter.

Directions of the forum

In view of the above findings and discussions, the Forum is of the view that,

- The provisional/average/wrong bills served to the complainant from Aug'2017 to Mar'2018 are to be revised as per the average of six consecutive billing of new meter as per Section 155 and 157 of Odisha Electricity Regulatory Commission Distribution (Conditions of Supply) Code, 2019.
- Any adjustments done during the revision period are also to be taken in to consideration.
- DPS charged on the wrong bills are also to be withdrawn.

Matter is closed herewith and the compliance report to be submitted to the undersigned on or before dated **31-03-2024**.
