That the Complainant has raised objection regarding the provisional/average bills served to him. He requested for revision of bills and mentions about verbal complaint being made to the respondent earlier on.

Gist of Arguments made by the Parties

Both parties were present in the hearing. The contentions made by the parties are as follows:

1. Submission of the Complainant:

- The complainant submits that, average bills have been served to him due to which high billings have been done resulted to accumulation of arrear.
- He further submits that; he had made verbal complain to the respondent about the erroneous bill.
- He also requested the Forum to revise the bills.

2. Reply Submission of the Respondent:

- The respondent produced the billing abstract from Jun'2020 to Jan'2024 and a PVR dated 05-02-2024 mentioning the meter reading as "589" KWH of meter no. TPWODL1064826.
- The respondent also agreed to the provisional/average billing from Dec'2018 to Jan'2023 and agreed for revision of bills. However, the respondent requested the Forum to take appropriate decision as necessary.

Findings of the Forum

Written/verbal Submissions were made by both parties and arguments were heard at length. This Forum, after hearing the parties and going through the relevant documents and provisions of law have concluded as follows:

- That the complainant has been billed on actual meter readings up to Nov'2018 with a meter reading of "6310" of meter no. ORB06215. From Dec'2018 to Jan'2023, provisional/average bills have been served @ of 106 units, 1147 units, 134 units due to defective meter.
- In the meanwhile, a new meter bearing Sl. No. TPWODL1064826 has been installed on 14-12-2022 in the premises of the complainant but reflected in Feb'2023.
- Therefore, it is decided by the Forum that, the average period bills should be revised.
- It is also noted that, from Dec'2022 to Jan'2023 bill revision has already done for late updation of meter change.

Directions of the forum

In view of the above findings and discussions, the Forum is of the view that,

- The provisional/average bills served to the complainant from Dec'2020 to Nov'2022 (Two Years) are to be revised as per the average of six consecutive billing of new meter as per Section 155 and 157 of Odisha Electricity Regulatory Commission Distribution (Conditions of Supply) Code, 2019.
- Any adjustments done during the revision period are also to be taken in to consideration.
- DPS charged on the wrong bills are also to be withdrawn.
