ORDER

Brief Facts of the Case

During the spot hearing at Kalunga Electrical Sub-division camp on dt.05.08.2024, the complainant appeared before the Forum whereas SDO Electrical, Kalunga appeared as respondent before the Forum.

Brief facts pertaining to the case are that the Complainant is a LT-Irrigation pumping and agriculture consumer having consumer No. 8130-0103-1399 with connected load of 2.7 KW. That the Complainant has raised objection regarding accumulated 27335 units bill served to him during the month of Apr'2022. He requested for revision of bills and mentions about verbal complaint being made to the respondent earlier on.

Gist of Arguments made by the Parties

Both parties were present in the hearing. The contentions made by the parties are as follows:

1. Submission of the Complainant:

- The complainant submitted that accumulated 27335 units bill served to him during the month of Apr'2022 due to which high billings have been done resulted to accumulation of arrear.
- He further submitted that he had made verbal complain to the respondent about the erroneous bill.
- He also requested the Forum to revise the bills.

2. Reply Submission of the Respondent:

- The respondent produced the billing abstract from Mar'2001 to Jun'2024 and a PVR dt.03.07.2024 mentioning the meter reading as "101" KWH of meter no. TWSC59013396.
- The respondent also agreed to the accumulated 27335 units bill served to him during the month of Apr'2022 and agreed for revision of bills. However, the respondent requested the Forum to take appropriate decision as necessary.

Findings of the Forum

Written/verbal Submissions were made by both parties and arguments were heard at length. This Forum, after hearing the parties and going through the relevant documents and provisions of law have concluded as follows:

- That the complainant has been billed on average basis from the outset @ 270 units, 144 units and 188 units per month upto Mar'2022 due to defective meter. Though a new meter installed on dt.29.04.2022, the bill generated on actual basis for Apr'2024 is also wrong. This meter is faulty and changed on dt.21.06.2024.
- A new meter bearing Sl. No. TWSC59013396 has been installed on dt.21.06.2024 in the premises of the complainant.
- Therefore, it is decided by the Forum that, provisional period bills should be revised.

Directions of the forum

In view of the above findings and discussions, the Forum is of the view that,

- The provisional bills served to the complainant from Apr'2022 to Mar'2024 (Two Years) are to be revised as per the average of six consecutive billing of new meter as per Section 155 and 157 of Odisha Electricity Regulatory Commission Distribution (Conditions of Supply) Code, 2019.
- Any adjustments done during the revision period are also to be taken into consideration.
- DPS charged on the wrong bills are also to be withdrawn.

Matter is closed herewith and the compliance report to be submitted to the undersigned on or before **dt.31.01.2025**.
